FUN!**

This summer the program begins on four college campuses—

Clark University, WPI, Becker College and Worcester State University

— for hands-on learning in their science and technology labs!

Eureka!® gives girls:

- skills and on-going support to pursue a college education
- positive female role models
- a hands-on experience in STEM and other non-traditional fields for women
- the opportunity to build friendships with girls from all over Worcester
- leadership skills and opportunities
- a well-rounded experience including health, fitness, and sports
- field trips, kayaking, canoeing, hiking
- relevant and intentional programming to support girls in becoming their most awesome selves
